To: Friends of Presidio Golf

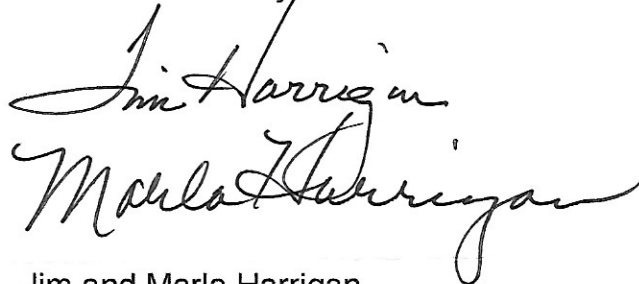

We have lived in Mission Hills for 30 years, passing by our little golf course at least once daily for all of those years. We always take a careful look to see the color of the grass, the condition of the trees, and the people who are enjoying themselves on the course. It sounds a little corny, but sometimes we think about what life might have been like for our early settlers who worked and played on that very piece of land.

Our boys learned to golf on that course, when it was managed and maintained well. Many hours were spent with their grandfather, fine-tuning skills for the game they still enjoy.

In recent years the course has been shamefully neglected. We have held our breath, hoping that not another building or parking lot would take its place. We are so grateful to the Friends of Presidio Hills Golf for the countless hours spent planning and gathering support to restore this historic piece of our community.

You have our enthusiastic support!

Sincerely,

Handwritten signatures of Jim and Marla Harrigan in cursive script.
